Attleboro Enterprises Inc.

AEI'S EMPLOYMENT PROGRAMS

For almost 30 years, Attleboro Enterprises has been working with MassAbility to help people with disabilities go to work. Our team works across southeastern Massachusetts, supporting folks with a wide range of disabilities. We are always seeking new employers and community partners as we continue to expand our employment services.

We work with our employers to educate them on the best way to support their employees and work with our individuals behind the scenes to assist them with maintaining employment.

While Attleboro Enterprises as whole, primarily supports individuals with Intellectual and Developmental Disabilities, our employment team works with a much wider variety of disabilities including those living with mental health conditions, social-emotional health conditions, and/or physical health conditions.

WHAT ARE COMPREHENSIVE CAREER SERVICES?

Our employment programs are funded through MassAbility.

There are two primary programs: Employment Services & Pre-ETS Services.

Employment Services help adult job seekers obtain and maintain competitive employment in their community.

Pre-ETS Services is a transition services program geared towards students aged 14-22 who are preparing for life after high school. Students participate in structured classes and paid internship opportunities.

WAYS TO PARTNER WITH US

So much of the work we do is dependent upon our community partners. There are three main ways to partner with us: Hire, Host, or Share!

Are you hiring?

Employment services is always looking to pair eligible job seekers with employment opportunities. Feel free to reach out to our team when you have an opening- maybe we'll have the perfect candidate!

Host a Work-Based Learning Experience!

In both our Pre-ETS and Employment Services programming, we have potential job seekers looking to gain real-world work experience in an integrated setting over the course of 30-60 hours. We provide the pay and liability coverage for the employee, we just ask that you provide the worksite!

Share your knowledge and expertise!

We are always looking to expand our industry knowledge. We want industry leaders willing to host job tours, provide informational interviews, or work with our staff to learn more about different career fields.
